

DMR Association Interoperability Certificate Document 10002 www.dmrassociation.org

Note to readers: This DMR Association Interoperability Certificate documents that the Radio Activity S.r.I product as detailed in Table A below:

TABLE A: DMR Equipment Tested			
Manufacturer	Radio Activity S.r.I		
Model	Master : RA – 450. Satellite : RA - 450		
Firmware	ID	Version	
	TRX	0.9.A.0	
	DSP	D001 - 13	

has successfully passed the DMR Association Tier 2 mandatory and optional interoperability tests outlined in the DMR Association test specification documents Interoperability Testing for DMR Tier 2 Systems – Mandatory Features V 1.0 and Interoperability Testing for DMR Tier 2 Systems – Optional Features V 1.0 on 15th June 2010 with the Motorola product referenced in Table B below.

TABLE B: DMR Equipment Tested		
Manufacturer	Motorola Inc	
Model	MOTOTRBO XPR6500	
Firmware	R01.06.11	

The DMR Association hereby declares that the product in Table A when tested with the product in Table B passed interoperability test cases as set out in the attached summary test report documents: Radio Activity-Motorola Test Summary Mandatory June 2010 , Radio Activity-Motorola Test Summary Optional June 2010

The DMR Association hereby declares that the testing took place according to the procedures and in a laboratory meeting the criteria set out in the DMR Association document: Interoperability Laboratory Recognition Process and Test Session Procedures V 1.0

All products belonging to the same model classes, meaning equipment that Radio Activity/ Motorola have determined, through engineering analysis or internal functional testing, to be functionally equivalent to the products in Table A and Table B, may be declared interoperable by Radio Activity S.r.I and Motorola Inc

Issue Date: 20th July 2010
