

# Authorized Training Centre Friendly

As an Authorized Training Centre (ATC) Friendly LLC is focused on developing and providing of the versatile training programs and courses for the engineers, sales specialists and users.

- MSCP trainings
- Individual training programs
- High-skilled and certified trainers
- Focus on hands-on trainings
- Proven learning methodologies
- On-site trainings

## Motorola Solutions Certification Program

We provide the trainings of the different levels on Motorola's technologies and solutions for engineers and sales specialists as a part of Motorola Solutions partners' certification programs (MSCP). The MSCP helps us to be ensured of the

partners' solid knowledge base and their abilities to sell and deploy the high-performance Motorola Solutions products and services. Our partners can be certified and recognized for their competency by Motorola Solutions.

## Individual training programs

Meeting the specific customers' requirements our ATC provides end-to-end training service beginning from the analysis and consultancy to the course development.

We offer the individual specialized training programs on DMR technology, MOTOTRBO systems

and solutions, TRBOnet dispatch applications for the specialists of the different levels.

ATC's trainers provide the substantial time for hands-on training that enables the participants to develop creative solutions for their unique requirements.

## Certified trainers

Our trainers use their long-term experience and skills in deploying various levels of the DMR radio communication systems and proven

learning methodologies. Our trainers are certified by Motorola Solutions Inc. and Learning Performance Institute (UK).

---

## Verticals

We provide the trainings and courses on long-term basis to various partners and customers in Eastern Europe and Central Asia:

- Public Safety organizations
  - Military
  - Oil & Gas companies
  - Rail Ways and transportation companies
  - Energy companies
  - Motorola Solutions Partners and Resellers
- 

## Meeting specific customers' needs

Delivering a wide range of training programs and courses, Friendly is concentrating on DMR technology knowledge improvements and

awareness about different system solutions, effectively and efficiently meeting specific needs of our customers.
