

DMR Association Interoperability Certificate
Document **10012**
www.dmrassociation.org

Note to readers: This DMR Association Interoperability Certificate documents that the Hytera Communications Corporation Ltd. product as detailed in Table A below:

TABLE A: DMR Equipment Tested		
Manufacturer	Hytera Communications Corporation Limited	
Model	Hytera DMR Tier III DS 6210	
Firmware	ID	Version
	V 1.2.01.002	N/A

has successfully passed the DMR Association Tier III mandatory and optional interoperability tests outlined in the DMR Association test specification document: Interoperability Testing for DMR Tier III Systems, Final 1.0, June 2012 on 25th October 2012 with the Harris Corporation product referenced in Table B below.

TABLE B: DMR Equipment Tested		
Manufacturer	Harris Corporation	
Model	HDP 150	
Firmware	ID	Version
	A4.06.06.000	N/A

The DMR Association hereby declares that the product in Table A, when tested with the product in Table B, passed interoperability test cases as set out in the attached summary test report document *Harris-Hytera Test Summary, October 2012*

The DMR Association hereby declares that the testing took place according to the procedures and in a laboratory meeting the criteria set out in the DMR Association document: *Interoperability Laboratory Recognition Process and Test Session Procedures, V1.03, October 2012*

All products belonging to the same model classes, meaning equipment that Hytera Communications Corporation Ltd. and Harris Corporation have determined, through engineering analysis or internal functional testing, to be functionally equivalent to the products in Table A and Table B, may be declared interoperable by Hytera Communications Corporation limited and Harris Corporation.
